Pilates, pronounced “Puh-Lah-Tees”, takes its name from Joseph Pilates who was born in Germany in 1880. Pilates believed mental and physical health were closely connected. His method was influenced by western forms of exercise, including gymnastics, boxing and wrestling. He immigrated to the US in the 1920s and opened a studio in New York, where he taught his method, which he called Contrology.

Pilates mat-work classes are fun, but also designed to help you improve flexibility and strength. Small equipment such as bands, toning circles and balls are used during mat-work classes to help you achieve better movement patterns and provide you with more awareness of your body – and of course to challenge you! Our instructors cater to each individual, offering alternative movements if needed - so there is never a reason to worry about your ability.

## Photography for Fun

**Days:** Wednesdays

**Times:** 9.30am-10.30am

**Location:** Online

In this group, we encourage each other to take notice of what is around us by taking photos on a theme. Taking notice enables us to be in the moment and can help you to feel more positive about life.

Each week we start by looking at the photos those attending the group have taken during the week. We enjoy talking about the photos, where these were taken and exploring the different styles.

Then a different theme is suggested for the next week such as animals, doors, weather, 'why is that there', food. During the week you notice what is around you and take photos on the theme.

No photography skills are needed and you can use a camera or your mobile phone. Please register online and book your place.
